Dear Friends for Life,

Marybeth* tried calling several abortion clinics before reaching the Pregnancy Test Center hotline. Instead of wanting to take her money for the abortion procedure, she got a counselor that ministered care, kind words, and much-needed information. She had not taken the time to consider the risks and long-term problems associated with abortions.

Marybeth made an appointment for the Medical Clinic the next week. Our Nurse Manager gave her insight into the benefits of carrying her baby to term and helped her explore life-giving options. During her ultrasound, the staff could hear crying - but these were joyful tears. She came out proudly holding a picture of her baby!

Marybeth is participating in our mentoring programs which give her access to the Stork's Nest Closet and needed baby and maternity items as she prepares for life with her baby. She is so grateful that we were here to tell her that "children are a gift of the Lord" (Psalm 127:3).

Thank you for making it possible for us to minister to the hurting and confused.

With Passion for Life,

Jeanne Franks
Executive Director
